## Objective

Aspiring for an entry-level position in an eminent software company where I can apply my strong analytical skills, problem-solving abilities, and innovative thinking to make meaningful contributions to the team and organization.

## Education

|                                                                                             |             |
|---------------------------------------------------------------------------------------------|-------------|
| <b>Koneru Lakshmaiah Education Foundation</b><br>B.Tech in Computer Science and Engineering | 2023 – 2027 |
| <b>Bhashyam Junior College</b><br>Intermediate (Class 12)                                   | 2021 – 2023 |
| <b>Bhashyam High School</b><br>Class 10 (SSC)                                               | 2020 – 2021 |

## Technical Skills

**Languages:** Java, C

**Backend & Databases:** SQL

**Developer Tools:** VS Code, Eclipse IDE

**Technologies/Frameworks:** Agentic AI, React

**Computer Science Fundamentals:** Data Structures & Algorithms, DBMS.

## Projects

### AquaMyst: The Hidden Ocean Interpreter

*Python, LangGraph, Ollama, PostgreSQL, PostGIS*

- Developed a multi-agent AI platform that autonomously analyzes oceanographic datasets using structured reasoning pipelines and LangGraph-based agent workflows for task delegation and insight generation.
- Integrated local LLMs via Ollama with a FastAPI backend and PostgreSQL/PostGIS to power collaborative agent reasoning and AI-driven data pipelines for ocean intelligence applications.

### Online Job Application Tracker

*React JS, CSS, Spring Boot, MySQL*

- Built a full-stack web application using React, Spring Boot, and MySQL, strengthening skills in REST APIs, JPA, and relational database design.
- Enhanced UI development and state management by implementing dynamic notification features and using Git for version control in a collaborative workflow.

## Recognition and Achievements

### Core Member, DataScience AI Dynamos Club 2026 – Present

- Contributed to organizing workshops, hackathons, peer-mentoring sessions, and guest lectures for 100+ participants, including national and international-level hackathons, while mentoring junior members on collaborative data-driven projects and skill development.

### Hackathon Achievement

- Awarded Consolation Prize in a 36-hour hackathon for a strong problem-solving approach, effective project execution, and clear presentation of the solution.

### Volunteer, National Service Scheme (NSS) 2026 – Present

- Organized and contributed to a 7-day NSS special camp at Revendrapadu, leading community service and awareness initiatives focused on education, health, environmental sustainability, and leadership development under KLEF NSS.

## Certifications

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| Cambridge English Written Linguaskill Exam conducted by Cambridge | 2023 – 2024 |
|-------------------------------------------------------------------|-------------|

## Interests & Hobbies

- |                                     |                                           |
|-------------------------------------|-------------------------------------------|
| • Helping Peers and Mentoring       | • Volunteering and Community Service      |
| • Club Management and Event Hosting | • Participating in Global Coding Contests |

## Global Coding Profiles

1) CodeChef      2) LeetCode      3) HackerRank
